

TECHKADA 2026

Project Presentation Guidelines and Judging Criteria

Event Objectives

TECHKADA aims to:

- Provide BSIT students with a platform to showcase their final projects developed during the semester through formal presentations.
- Demonstrate the application of technical knowledge and skills in creating functional and innovative IT solutions.
- Enhance students' confidence and competence in presenting, defending, and communicating their projects in a professional setting.

Participating Project Categories

First Year

- HCI (Human-Computer Interaction) Project
- Python Programming Project

Second Year

- Web Development Project

Third Year

- Information Security Project

Presentation Guidelines for Student Participants

1. Each group will be given a total of **8 minutes**:
 - **5 minutes** for the project presentation
 - **2 minutes** for critique, questions, and feedback from the judges
2. Presenters are expected to:
 - Must arrive at the venue **30 minutes before the program starts**.
 - Wear the prescribed school uniform.
 - Wear a nameplate in the format: **F. Lastname**
 - Example: **J. Dela Cruz**
 - Prepare all necessary presentation materials, including slides, prototypes, demonstrations, and backup files.
 - Ensure that their presentation is concise, organized, and professional.
3. Participants may present their projects in any format or flow they prefer, provided that they are able to:
 - Clearly explain their project
 - Demonstrate the main features and functionality of the system or output
 - Communicate the purpose and significance of their project effectively
4. To ensure fairness and smooth program flow:
 - A designated timekeeper will monitor the allotted time.
 - Visual time warnings will be shown when:
 - **2 minutes remaining**
 - **1 minute remaining**
 - **30 seconds remaining**
 - Presenters are expected to conclude immediately once the allotted time ends.
5. Participants are encouraged to:
 - Practice beforehand to manage time effectively.
 - Demonstrate professionalism, teamwork, and preparedness during the presentation.

Guidelines for Judges

1. Judges are requested to:
 - Evaluate each project fairly and objectively based on the official criteria.
 - Provide constructive and educational feedback to the participants.
 - Observe the quality of the project, presentation delivery, technical implementation, innovation, and professionalism.
2. During the critique portion:
 - Judges may ask questions regarding the project's development, implementation, features, security, usability, or technical aspects.
 - Feedback should remain respectful, professional, and encouraging.
3. Judges are encouraged to consider:
 - Relevance and practicality of the project
 - Creativity and innovation
 - Technical quality and functionality
 - Presentation effectiveness and communication skills
 - Team preparedness and confidence
4. Completed scoring sheets must be submitted immediately after each presentation for proper tabulation.

Judging Criteria

Criteria	Description	Percentage
Technical Quality & Functionality	Performance, implementation, completeness, and effectiveness of the project	35%
Innovation & Creativity	Originality, uniqueness, and relevance of the solution	20%
Presentation & Communication	Organization, clarity, confidence, and delivery of presentation	20%
Demonstration & Usability	Quality of demonstration and user experience	15%
Response to Questions	Ability to answer questions accurately and professionally	10%

| Total | | 100% |

Additional Reminders

- All participants are expected to observe professionalism and proper decorum throughout the event.
- Any inappropriate behavior, plagiarism, or offensive content may result in deductions or disqualification depending on the severity of the violation.
- The decision of the judges shall be final and irrevocable.
- **All students are required to wear a school uniform.**
